OF 60

CLAUDE AI TASK COMPLETED SUCCESSFULLY!

Today, I created a powerful custom skill in Claude to analyze stocks using **fundamentals** and generate evidence-based research reports.

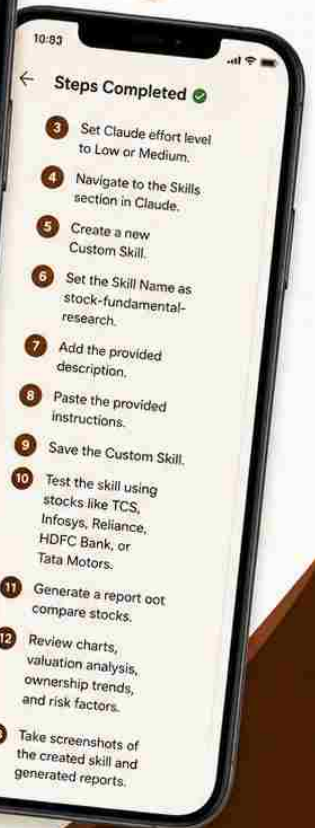

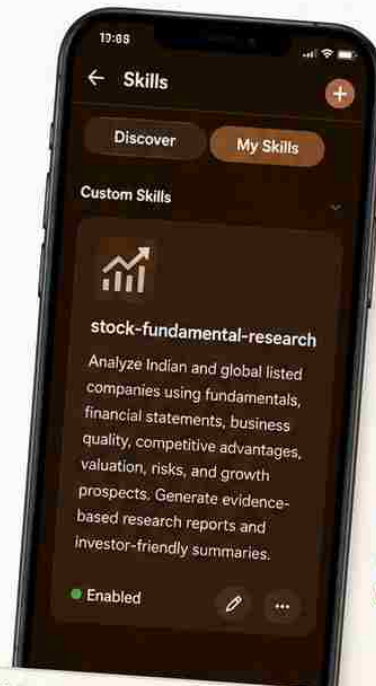

✓ WHAT I DID TODAY

- ✓ Created a Custom Skill: stock-fundamental-research
- ✓ Added detailed description & instructions
- ✓ Configured the skill for comprehensive fundamental analysis
- ✓ Tested with top Indian stocks (TCS, Infosys, Reliance, HDFC Bank, Tata Motors)
- ✓ Generated in-depth reports with charts, valuation analysis, ownership trends & risk factors

BUILT TO ANALYZE. DESIGNED TO EMPOWER INVESTORS.

This skill helps turn data into insights and insights into better informed decisions.

ABOUT THE SKILL

stock-fundamental-research analyzes companies using fundamentals, financials, valuation, growth, risks, and more – and delivers investor-friendly research reports without any buy/sell recommendations.

GROWTH TREND

Metric	3Y CAGR	5Y CAGR
Revenue	8.7%	9.5%
Net Profit	6.1%	6.3%
EPS	5.6%	5.7%

Source: Screener (FY20-FY25)

3 KEY STRENGTHS

1. Diversified business portfolio across energy, retail, telecom and digital.
2. Strong balance sheet with manageable debt and steady cash flows.
3. Market leader in Jio (telecom) and strong scale in retail and O2C.

2 WATCH POINTS

1. Capital intensive businesses require high capex and long gestation.
2. ROE/ROCE below 15% - return ratios need improvement over time.

FUNDAMENTAL QUALITY: MODERATE TO STRONG

Strong scale, diversified cash flows and leading market positions support quality. However, return ratios and high capex are areas to monitor.

COMPETITIVE POSITION (MOAT)

- Large scale and diversified operations across multiple sectors.
- Cost leadership in refining and petrochemicals.
- Strong brand and customer ecosystem (Jio & Retail).
- Continuous investments in new energy, digital and tech.
